Referat für Migration & Integration (Willkommenszentrum Leipzig & Regionales Integrationsnetzwerk IQ Leipzig)

The Department for Migration and Integration of the City of Leipzig together with the Welcome Center Leipzig and the Regional Integration Network IQ Leipzig (LeIQ). The Leipzig Welcome Center is an advice centre for all people with a migration background - regardless of their residence status - who have recently moved to Leipzig or already live in the city. We offer multilingual and free advice without appointments on all topics of daily life: work, education, residence, family, health, school, language, housing, etc. We also hold regular multilingual information events, also on everyday topics. The Regional Integration Network IQ Leipzig (LeIQ) is part of the nationwide support program. The aim of the LeIQ network is to integrate people of foreign origin into the labor market in a way that is appropriate to their education. In order to increase the access opportunities of people of foreign origin to the labor market, various qualification measures are implemented in the project. These are closely combined with the offers and support structures of the regular institutions (especially employment agencies and job centers). The LeIQ network is also a point of contact for employers and other stakeholders in labor market integration in order to reduce structural barriers and discrimination in the labor market.
